TEEN ACCOUNTS

Teens can start preparing for their futures right here at Romney FCU.

Learning to save, manage funds and make the most out of their money is all possible with our new Teen Accounts.

Teens are now able to start an account, receive a debit card and begin spending responsibly.

Parents are able to assist by being added to accounts and are able to view everything on our home/mobile banking.

See one of our representatives to get started today!

BENEFITS OF TEEN ACCOUNTS

Teen Accounts can teach teens about working, saving, and growing money.

These Accounts promote a strong sense of self-accountability.

They help Teens to become familiar with online banking, transactions and other tools/services offered by financial institutions.

Teen Accounts are good practice for Adulthood, with key factors such as necessity of purchases and growing one's funds.

Once established, teens will later be able to apply for loans and other services offered to our 18+ members.

My kids love it. I love it. It's a fantastic and well organised way to teach kids about money.

They can keep up with money earned and spent and understand concepts of savings.

My daughter benefits in learning how to manage her allowance and I keep an eye on her spending.
